

AIRFIX V 60 /VE 60

Eggersmann Attachments Air Separator

Recycling Technology

sales@f-e.de | www.f-e.de

Effective removal of light contamination from the material during the screening process: With the compact AIRFIX V 60/VE 60 you can easily add the wind sifting function to your screening machine.

Screening and sifting in one pass!

Product Highlights

- › Suction/pressure blower with 20.5 kW output
- › Can be connected electrically or hydraulically
- › Adds wind sifting to the screening process
- › Efficient and cost-effective solution

Applications

- › Shredded Waste Wood
- › Shredded Plastic
- › Shredded Green Waste
- › Compost
- › Shredded Household Waste
- › Wood Chips
- › Shredded Commercial Waste
- › Bark Mulch
- › Shredded Building Rubble
- › Grate Ash
- › Shredded Glass
- › Soil

What can be removed?

- › Lightweight Plastics
- › Plastic Bags
- › Films

Technische Highlights

Convenient Operation

- › Easy placement on the ground
- › Material transfer into a container
- › Regulating slide for volume flow

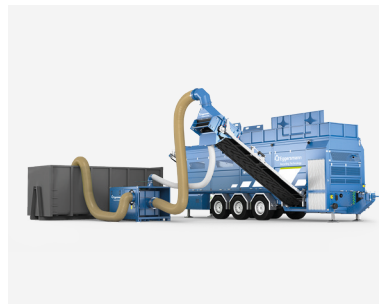

Versatile in Use

- › Practical recesses for easy relocation with a forklift truck

How Does the AIRFIX V 60 Work?

- › The special feature of the AIRFIX is the suction/pressure blower:
- › The material is blown under at the end of the discharge belt to make it easier to suck the contaminants upwards.

Can be Used With our Screening Machines
